Good afternoon Joe,

Please see the attached regarding the additional questions and the SDR analysis. Happy to chat further next week if needed.

Thanks,

Lindsey Wakely | Deputy General Counsel

Good afternoon Joe,

Please see the attached correspondence from Executive Director Brinson Bell. We are still in the process of confirming the data for item 6 and finalizing our responses to the questions from Representative Torbett. We plan to have both of those to you by Friday.

I will be away from the office tomorrow with limited email availability, but feel free to give me a call if you have any questions.

Thank you,

Lindsey Wakely | Deputy General Counsel

Director Brinson Bell,

Thank you for your testimony to the House Oversight and Reform Committee last Thursday. It was a great benefit for members and we had positive responses from those who watched online, too.

We had a few items for clarification and follow-up

1. In your exchange with Rep. Chesser, it was not clear what prevents getting death records from the Social Security Administration. Could you provide further explanation on what shortcomings exist and on which side?
2. How frequently do court systems provide information to the boards of election when a potential jurist is excused for citizenship or residency reasons?
3. Do boards of elections compare voter lists with public assistance enrollment lists?
4. Has the State Board ever used a credit agency or other commercial data house to validate voter lists?
5. You described limits on the ability to confirm addresses provided against county property records. Is it correct to say that addresses are attested and not audited?
6. Could you provide analysis of SDR (new-only and total) ballots with verified and confirmed addresses, those with bad addresses, and the general population of voters for general elections in 2016, 2018, 2020, and 2022? For this comparison, please provide distribution of voters in each group by precinct, county, election results, party choice, etc.

Following on the questions from Rep. Torbett, the State Board provides a great deal of data, much of it easy to use and understand. The site already provides the election results dashboard and data visualizations using Tableau. Two significant exceptions, however, are the statewide voter history and voter record files. They are larger than most people can access with Excel or versions of R. Those who can access and use the data often have additional questions. Even the data on same-day registrations led to different numbers based on whether the universe was all same-day registrations or only new registrations. You also mentioned differences that can result from people taking a ballot and not casting it.

- What steps has the State Board taken to improve access to and understanding of voter

history and voter records data?

- What additional steps have been considered to incorporate user experience into data availability and presentation?

As in the past, we would prefer to refine our request with your staff than to have them try to answer questions we did not mean to ask. The last item on data presentation is something that may make more sense as a conversation in its own right.

Thank you,
Joe

July 28, 2023

Dear Mr. Coletti,

As a follow up to my letter from Wednesday, July 26, please see responses below to the remaining questions from the House Oversight and Reform Committee.

(1) What steps has the State Board taken to improve access to and understanding of voter history and voter records data?

The State Board of Elections, back in 2020, added detailed language to its [Voter Registration Data](#) and [Voter History Data](#) webpages as part of an overhaul of the State Board website, NCSBE.gov. These additions were in response to requests and questions we were getting from the public about our data files. The information on the website outlines what is included in the data files, what is not included in the data files, the file layouts, and when the files are updated. We also drafted [FAQ: Voter History Data](#) to answer common questions about voter history files.

In addition, State Board staff answers hundreds of questions every year about our data files, and routinely provides special reports and analyses stemming from public queries.

The steps we have taken on the data front, combined with the robust data we provide publicly on our website, have led to the top score in the country – 97 out of 100 – on the [Voter Reference Foundation's Data Transparency Scorecard](#).

(2) What additional steps have been considered to incorporate user experience into data availability and presentation?

State Board staff answers hundreds of questions every year about our data files, and these questions lead to ideas about how we can improve data transparency and usability. Some of these ideas have been implemented, and some may be implemented in the future but depend largely on personnel and funding availability.

For example:

- The [Voter Registration Statistics](#) tool provides county-level demographic breakdowns of current voter registration numbers
- Since 2020, we have created election-specific [Voter Turnout](#) pages that provide demographic and voting method breakdowns so that the public does not have to be data experts or even download a file to easily get that type of information
- The [Local Voter Tool](#) and the [new elections map](#) are recent efforts to make it easy for the public to get information about when their local elections will be held and what contests will be on the ballot.

In terms of file sizes being too large, with 7.3 million registered voters, that is largely out of our control based on software limitations, but we do provide county-by-county databases in addition to statewide files. We also provide files on a one-off basis to individual requesters and will continue to do that as resources allow. The proposed modernization of the SEIMS system would allow us to generate many more data reports with fewer resources than we currently use.

Attached, please also find an analysis of same-day registration data for the years 2016, 2018, 2020, and 2022 as requested. If you would like to discuss this data further, or need additional information, please let us know.

Thank you again for reaching out on behalf of the House Oversight and Reform Committee. If I can be of any additional assistance, please let me know.

Sincerely,

Karen Brinson Bell
Executive Director
North Carolina State Board of Elections

NORTH CAROLINA STATE BOARD OF ELECTIONS

NC Same-Day Registration Statistics

The below tables contain data on voters who were either new registrants, or updated their registration, during the early voting period in the 2016, 2018, 2020, and 2022 General Elections.
